# SAUL

The people of Israel wanted to have a king like other countries. A young man named Saul stopped at the house of the prophet, Samuel. Samuel was certain that Saul was meant to be king and blessed him. Samuel gathered the people together and presented Saul as the king. There was a great festival to honor Saul.

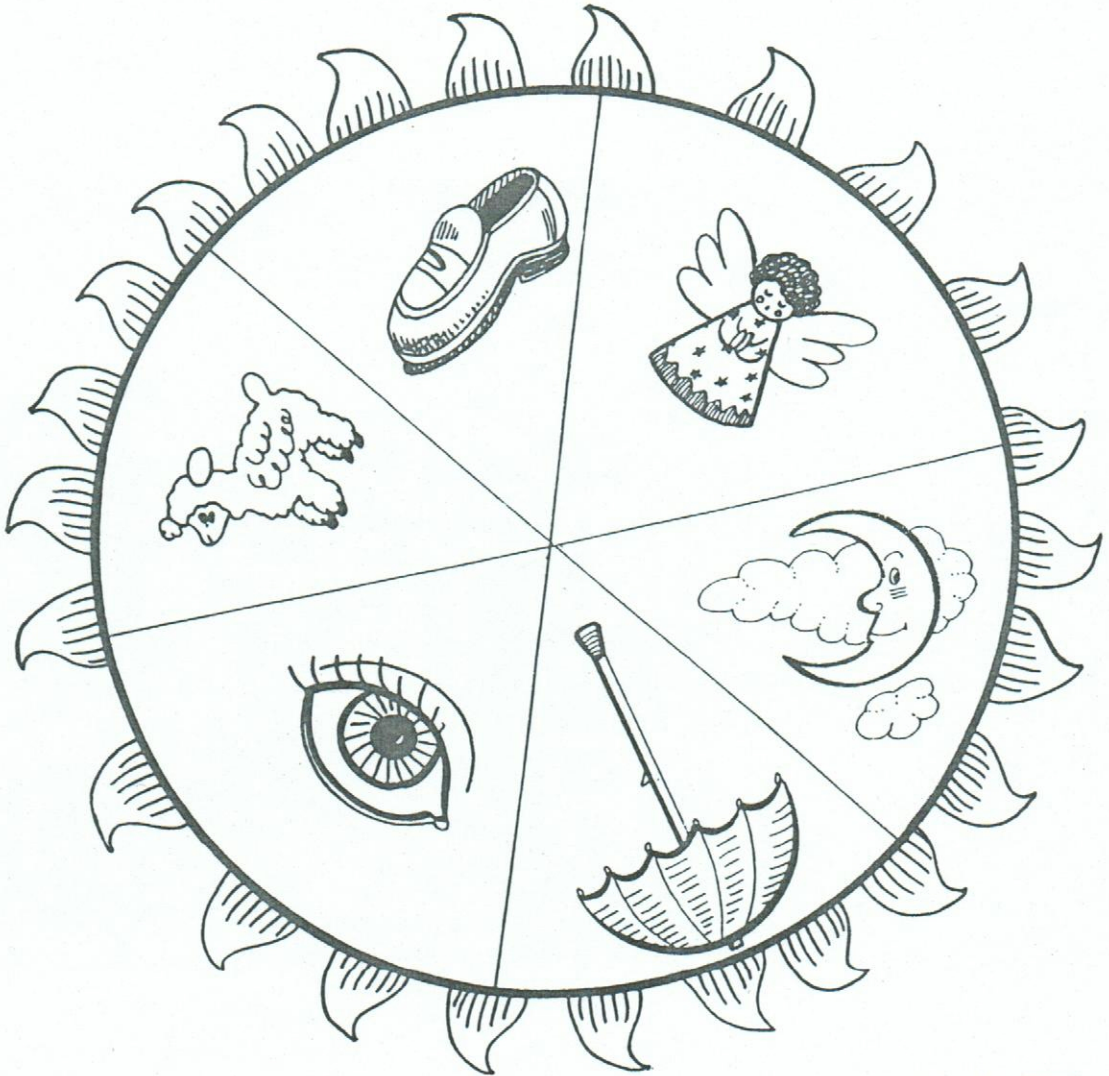

But Saul was not a good king. When his soldiers fought in other lands they kept the riches they found for themselves and did not offer thanks to God. Samuel was told to look for another king. He chose the young shepherd, David. David came to the court to play his lyre for Saul, who did not know then that one day David would replace him and become the greatest king of Israel.
